CALL FOR REPUBLICAN STATE CONVENTION

Whereas pursuant to the provisions of the enabling act and the resolution admitting New Mexico into the statehood of states, the governor of New Mexico has issued his proclamation ordering an election to be held on Tuesday, November 7, 1911, for the purpose of electing the various congressional, state, legislative, judicial and county officers authorized by the constitution heretofore adopted by the people of New Mexico;

Now, therefore, pursuant to and in accordance with resolutions adopted by the Republican central committee of New Mexico in convention assembled at Santa Fe, N. M., on Tuesday, September 5, 1911, a call is hereby issued for the holding of the first Republican state convention in the city of Las Vegas, N. M., at 10 o'clock in the forenoon of Thursday, the 28th day of September, A. D. 1911, for the purpose of nominating candidates for the various congressional and state offices created and authorized by law; and the Republican central committee of the various counties of the new state, except as otherwise by this committee ordered, are requested to issue calls for the holding, upon such notice and date as they may deem expedient, county conventions for the purpose of electing delegates to said state convention, at which the basis of representation shall be 1 delegate for each 100, or fraction thereof, of 50 or more, of the votes cast for the Republican candidates for delegate to congress at the election of 1908, and 1 delegate at large from each county now in existence; upon which basis the representation at said state convention from the several counties of New Mexico shall be as follows:

Delegates	
Bernalillo	25
Chaves	10
Coffey	17
Curry	5
Dona Ana	13
Eddy	4
Grant	19
Guadalupe	11
Lincoln	9
Luna	3
McKinley	15
Otero	7
Quay	11
Rio Arriba	16
Roosevelt	10
Sandoval	4
San Juan	3
San Miguel	30
Santa Fe	17
Sierra	5
Socorro	17
Taos	13
Torrance	8
Union	14
Vaughn	16
Total	303

It is recommended that in event the same delegates are not elected delegates to the judicial and legislative district conventions that the same basis be used in the election of such district delegates and that such conventions shall be called and held after the state convention, at such time and place as may be agreed upon by the chairman of the central committee of the several counties composing the respective districts mentioned, or in default of agreement, by said chairman, by a majority of the delegates elected to such district convention.

It is further recommended that the Republican county conventions be held for the several counties, for the nomination of county officers, to be held after the state convention.

H. O. BURSUM,

JOSE D. SENA Chairman.

Secretary.

THE REPUBLICAN PARTY.

The sub-committee from the Republican state committee has concluded its hearings of the dispute in party affairs in this county. It has made a report to State Chairman H. C. Barsum, in which it makes fair, honest and accurate review of what it has found. The fair-minded Republicans of this county know that what the sub-committee reports is true and represents the situation honestly.

The sub-committee has recognized Judge Edward A. Mann as chairman of the Republican county committee. It also has recognized the original committee, named at the last county convention, as the Republican county committee.

Judge Mann, as chairman, is instructed to issue the call for the county election and it is understood that the party will hold its primaries and its election.

The sub-committee, as all fair-minded men know, made every effort to get all factions and leaders together, but it could not do so because one faction would consent to no arrangement proposed. The sub-committee then did what it considered for the best interests of the party in this county, and that its members acted honestly and disinterestedly can not be questioned.

All Republicans should unite now to make the coming election a strong Republican victory and restore Bernallillo county to the position she once held in the Republican party as the banner county of New Mexico.

Judge Mann has issued a call for a meeting of the county committee,

as designated by the sub-committee and it is up to the loyal Republicans in that committee to open the same.

THE RECALL.

Some of our Democratic friends who have been urging the recall of the judiciary as the very easiest thing in progressive legislation, and who have been saying condemnatory things about the president because he revised the Arizona constitution, will receive a severe jolt when they turn to the editorial page of the *Advertiser*. Paul, one of the strongest Democratic names in the same southland.

The *Advertiser* declares itself against the recall of the judiciary and against the principles therein. It discusses the question as follows and handles the subject without gloves:

The action of the American Bar association Thursday in adopting by an overwhelming majority a resolution denouncing the principle of the recall of judges will have the effect of drawing renewed attention to the steady growth of agitation in support of one of the most dangerous innovations upon our representative republican form of government ever proposed. The campaign in behalf of the recall and the initiative and referendum, equally as pernicious in principle, has been carried forward by an organized movement in that behalf so insidiously and sedulously as to have attained formidable proportions without exciting the apprehension of thoughtful citizens as to the remarkable progress it is making in enlisted support upon superficial investigation, until recent discussions in congress upon the application of Arizona and New Mexico for statehood revealed its strength.

The apathy of the people's representatives respecting the dangerous character of the proposed innovation, and their willingness to lend it further encouragement by admitting into the union as a state a territory which had incorporated it in its constitution brought the issue into prominence as one that must be combated by the intelligent citizenship of this country. If its further progress is to be arrested and the splendid governmental structure bequeathed to us by the fathers preserved to succeeding generations,

Composed as it is of the best legal talent in the United States, the American Bar association is peculiarly qualified to give intelligent expression to the viciousness of the principle involved in the recall. Now can this expression be prompted by other than patriotic motives, since the shadow of political conditions that would inevitably ensue, the selfish ambitions of members of the legal fraternity would find larger opportunity for political preferment.

Since the movement has already gained such force as to attract to it many supporters more or less prominent in public life—men who espouse the principle upon superficial knowledge of its pernicious character in the hope of using it as a means of political preferment, or else are largely swayed by the popular it is highly important that an organized and aggressive campaign be waged against it. This the American Bar association proposes to do, as shown by its action in authorizing the president of the association to appoint a committee in each state and territory to take such steps as the committee shall deem best to expose the fallacies of the recall.

In this effort the association should have the assistance and cooperation of organized democracy everywhere, as it is evident that needed vigilance has not been exercised by sentinels we have placed on the watch tower. Among the evildoers already closed is one for an elaborate sign for the popular "Smoke House" on Gold avenue. The device will show the word "bowling" in letters of flame and the words "Smoke House" and "Pool" will also be brilliantly displayed.

The new Capital Bar is to be another bright spot in the business district the management having contracted for a sign with the lights.

J. Sam Huston, manager of the Alamo, is also one of those who believe thoroughly in the "boost" value of electric light.

TRANSYAN GOLD MINES TURN OUT BIG FORTUNE.

Values of the Yellow Staff for the Past Year Was Nearly Fifteen Million Dollars.

(By Evening Herald A. P. Leased Wire)

London, Sept. 8.—The output of the Transyan gold mines during August broke all records. The total number of ounces of gold mined was 712,491, the value of the metal being approximately \$11,257,472.

HOW'S THIS?

We offer one Hundred Dollars Reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure. E. J. CHENEY & CO., Toledo, Ohio.

We, the undersigned, have known E. J. Cheney for the last 15 years and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KUNNAN & MARVIN

Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75¢ per bottle, sold to all druggists.

Take Hall's Family Pills for constipation.

ELFEGO BACA, Attorney-at-Law.

Albuquerque, N. M.

Cures baby's croup. Willie's daily cuts and bruises, mamma's throat, grandma's lameness—r. Thomas' Eclectic Oil—the great household remedy.

CITIZENS' RESPONSE TUBERCLESCIDE CASE TO APPEAL VERY ENCOURAGING

WAS ORDERED DISMISSED

Local Representative Points Out How Value of Vaccination and Anti-Toxin Was Always Doubtful.

Charles F. Aycock, who was arrested on August 26 for practicing medicine without a license in New Mexico, and who received a sentence as one of the recent cases in the state, was assigned yesterday on trial in Judge Craig's court and on the presentation of Mr. Aycock and the district attorney dismissed the case and ordered Mr. Aycock's cash bond returned to him.

The Tuberclecid company, of which Mr. Aycock is a member, is represented in this city by Dr. William L. Taylor. When Dr. Taylor was asked concerning his work in this company, he replied that business had been better than he expected since the company had been vigorously attacked and published as a fake. "But," he said, "I feel confident that as soon as those who have begun treatment are able to get out from their beds and walk the streets and testify what Tuberclecid has done for them, the company will do a great business." Eight months ago this company opened up an office in Phoenix, Ariz., and I understand today they have about 100 patients. Look what they are doing in California.

Some people who began two weeks ago in this city have gallied as high as three pounds, one lady said yesterday that her temperature was in a better condition than it had been for three months. Some say as soon as they feel justifiable they will write up the history of their case and they will be only too glad to recommend what is doing to them. The Tuberclecid Co. is not here to fight any one who has been treated, but is here to demonstrate the merits of Tuberclecid.

There is no question but what this company will do a great work here as soon as people see what it will do.

Some will refuse to take it, stating that they must be shown and while they are waiting to see some one else cured they will wait too long. I am surprised when I see people who are dying with Tuberculosis and an opportunity to get a treatment pay nothing, and that they refuse to take it.

The Tuberclecid Co. expected opposition here. Why should they not when we look back over past history and see no cases man has been called a fake who made any discoveries of importance? Who did the people do to the man who first proclaimed that vaccination would prevent small pox—he was branded as a fake and banished from his home. Today all the school children must be vaccinated before they are allowed to go to school. It is the law in every state today. How about the man who first advocated antitoxin for diphtheria?

How about the man who made the discovery that the stagnant, the female mosquito, was responsible for yellow fever? So when we look back over history it is not surprising that Mr. Aycock's claims are questioned.

The time is not far distant when this treatment will be universally recognized as the best and safest treatment for tuberculosis, but it will take time. Many people will pass out thinking no cure has been found.

On account of the numerous requests from former patrons, the directors decided at the meeting last night to reopen the lunch room next Monday.

BOOSTERS ORDERING FINE ELECTRIC SIGNS

Local Business People Show a Keen Interest in Electric Company's Vigorous Lighting Campaign.

Continued from Page 2.

Business and in Syden, where strings of wood pavements have been joined to stone pavements, and where both had been subjected to the heaviest wear, that the wood blocks had worn even better than the stone.

During our inspection of the streets of New York and Brooklyn we closely examined the Williamsburg bridge over East river, the approaches of which were paved with first-class, well-shaped Medina sandstone blocks of 6 to 8 inches in diameter set ends in mud and the spaces filled with sand and gravel. Of course, such pavement decayed rapidly and produced sores in Jacksonville, Memphis, and Vicksburg. Neither should it be confounded with the stone adjacent to the curb, which had been laid with a wood about pavement.

One of the pavements we examined had been down five years and had been subjected to heavy traffic, yet not a sign of wear did we discover, even over the blocks around the manholes and catch basins showed any wear—and not a block was out of position, except an occasional block adjacent to the curb had been moved about one-fourth of an inch by the pavement expanding slightly, and on this street they had made no provision for expansion.

All future pavements they had provided for slight expansion and had experienced no trouble.

There is nothing complicated or difficult connected either with the treatment of the blocks or the laying of the pavement.

Now, again, let us name the essential qualities of a pavement:

1. Reasonable first cost.

2. Cost of maintenance.

3. Facility of repairs.

4. Durability under traffic.

5. Freedom of noise.

6. Freedom of dust.

7. Freedom from decay.

8. Freedom from absorption.

9. Foothold for horses.

10. Ease of traction.

How nearly does the modern wood block pavement fulfill these different requirements of an ideal pavement?

No first-class pavement can be put down cheaper than wood block pavement.

2. No pavement can be as cheaply repaired.

3. No pavement is so easily repaired. (No plant required—a laborer, a hammer, a chisel, a bucket of pitch mixture and a treated block are all that are needed.)

4. No pavement is so easily destroyed.

5. Properly selected and treated wood block pavement will not decay.

6. There is nothing about a wood block pavement to grind into dust, and it is therefore the most free from dirt, set grain up. No chance for silicate, and therefore the cleanest.

7. Properly selected and treated wood block pavement will not decay.

8. Properly selected and treated wood block pavement must be the most sanitary pavement known to engineers.

9. Except on "sweaty days" of which we have precious few hours, the wood block pavement is not slippery and should a horse fall it is easier for him to regain his footing than on any other smooth pavement.

10. It may offer very slightly more friction to traction than asphalt, but if this is true, it offers very much better foothold for horses than asphalt.

It is one of the two smoothest pavements which possess elasticity.

It is the smoothest of all pavements.

It is the smoothest of all pavements.
